October 10, 2007

Dear Friend of Pennsylvania Aviation,

We would like to introduce you to the Aviation Council of Pennsylvania. The Aviation Council is a non-profit, membership based aviation Association which represents all sectors of the Pennsylvania aviation community in matters involving government and private sector interests.

General Aviation and your right to pilot an aircraft is being challenged each day. Legislative limitations, administrative regulations and operational requirements threaten your ability to operate an aircraft with the same freedom that you enjoyed when you earned your first license.

On October 3, 2007, members and staff of the Aviation Council of Pennsylvania presented Testimony at a Hearing conducted by the Pennsylvania Senate Transportation Committee. **The purpose of the Hearing was to demonstrate the need to eliminate Pennsylvania Sales Tax on Aircraft Sales, Parts, Maintenance and Repairs.** Visit our website at [www.acpfly.com](http://www.acpfly.com) to view the testimony.

This critical project will help Pennsylvania pilots, aircraft owners and airport operators to be competitive with many surrounding States. Enclosed is a Council membership brochure and application.

**Pilot Members** pay only \$30.00. As an added incentive, join now and your membership will be extended until December 31, 2008. Your membership will help to insure that Pennsylvania remains friendly and viable for all aviation users for years to come.

Thanks for taking the time to learn about the Aviation Council of Pennsylvania. We look forward to having you on board as we continue our journey.

Sincerely,

Robert Rockmaker, A.A.E.  
Executive Director

Everitt duPont & Lou Beemer  
Co-Chairs Membership Committee
